## Affiliated projects summary

<b>Date:</b> 21 June 2013
<b>Project title:</b> Flora and vegetation of Credo Station
<b>Abstract:</b> Two studies have been undertaken on the flora and vegetation of Credo Station. The first concentrated on the floristic patterns of the greenstone ranges; the second was more broadly focused across the major habitats found on Credo. Point location data from these surveys are available; however no mapping has been undertaken.  Expected project timeframe: Both studies have been completed.
<b>Contacts</b> Name: Dr Neil Gibson Organisation: Department of Parks and Wildlife Email: Neil.Gibson@dpaw.wa.gov.au
<b>Associated parties/collaborators</b> (others involved in the project) Name: Dr Rachel Meissner Organisation: Department of Parks and Wildlife Email: Rachel.Meissner@dpaw.wa.gov.au
<b>Funding sources:</b> DPW funds BushBlitz Program
<b>Datasets being used or collected:</b> Geolocated flora lists
<b>Geographic coverage of study:</b> Credo Station
